

Shubham Asgaonkar

Date of birth: 04/10/2003 | **Place of birth:** Mumbai, India | **Nationality:** Indian | **Gender:** Male | **Phone:** (+91) 9619739602 (Mobile) | **Email address:** asgaonkarshubham70@gmail.com | **LinkedIn:** https://www.linkedin.com/in/%20shubham-asgaonkar/ | **Address:** 4 Bunglows Model Town, Andheri West, 400055, Mumbai, India (Home)

ABOUT MYSELF

DevOps & MLOps Engineer with cross-cloud experience in AWS and Azure.

Experienced in architecting and deploying scalable software systems, containerised services, and GPU-accelerated ML workloads on Kubernetes (EKS & AKS).

Led development of Python-based FastAPI applications and automated CI/CD pipelines for training, versioning, and deployment.

Skilled in applied cloud computing, observability, and secure, scalable infrastructure design in multi-account enterprise environments.

WORK EXPERIENCE

01/12/2025 - CURRENT - MUMBAI, INDIA

CLOUD ENGINEER ONETURE TECHNOLOGIES

- Developed production-ready GenAI/LLM solutions as part of a cross-functional team building a client product from scratch.
- Designed and implemented Python-based services for document conversion (PDF/other formats) to Markdown as backend APIs.
- Built reusable microservices (MCP servers) exposing AI/LLM tools for internal and external usage via standardized API calls.
- Contributed to core code development of Microsoft agent framework to support intelligent agent-driven workflows.
- Deployed AI MCP servers and supporting backend services to **Azure Kubernetes Service (AKS)** with high availability and environment segregation.
- Automated deployment pipelines using **Azure DevOps** for multiple repositories, incorporating security and quality checks (Veracode, SonarQube, Twistlock, Docker scanning).
- Managed multiple environments (DEV, SIT, UAT), ensuring reliable promotion and environment consistency.
- Integrated centralized logging and monitoring using **Splunk** for container logs and operational visibility.

01/12/2024 - 30/11/2025 - MUMBAI, INDIA

ASSOCIATE CLOUD ENGINEER ONETURE TECHNOLOGIES

- Improved AWS security posture from ~20 % to >85 % using native controls, account-level guardrails, and centralized monitoring.
- Migrated workloads to private subnets, enforcing network isolation, least-privilege access, and compliance.
- Designed and deployed production-grade 3-tier applications (React, Node.js, MongoDB) on EKS with CI/CD automation.
- Built automated build & release pipelines with Docker and GitLab CI/CD.
- Integrated DevSecOps controls (SAST, DAST, container scanning) using SonarCloud, Trivy, and OWASP ZAP.
- Reduced ML inference costs by ~80 % by migrating from AWS SageMaker to containerized model serving on EKS with autoscaled GPU nodes.
- Managed EKS cluster performance, reliability, and cost via Prometheus, Grafana, and AWS CloudWatch.
- Deployed and operated staging & production environments on Amazon Linux EC2 with RDS (PostgreSQL).
- Configured Nginx reverse proxy for secure traffic routing and environment hosting.

01/09/2024 - 30/11/2024 - MUMBAI, INDIA

JUNIOR CLOUD ENGINEER (INTERNSHIP) ONETURE TECHNOLOGIES

- Optimized AWS infrastructure for cost efficiency and improved operational security.
- Prepared solution architecture diagrams and operational documentation for engineering teams and stakeholders.
- Containerized internal ML and GenAI initiatives using Docker with multi-stage builds to minimize image size and deployment time.

EDUCATION & TRAINING

01/04/2021 - 01/05/2024 - MUMBAI, INDIA

BSC COMPUTER SCIENCE (CLOUD TECHNOLOGY & INFORMATION SECURITY) — CGPA: 9.68 - NAGINDAS KHANDWALA COLLEGE, UNIVERSITY OF MUMBAI

Field(s) of study: Computer Science

CERTIFICATIONS

16/11/2024 Amazon Web Services (AWS)
Solutions Architect - Associate

LANGUAGE SKILLS

Mother tongue(s): **MARATHI**

Other language(s): **ENGLISH** | **HINDI**

SKILLS

Cloud Provider
Microsoft Azure | AWS

Containers & Orchestration
Kubernetes | Docker | Docker Compose | Karpenter | Helm

CI/CD, Automation, IaC & DevSecOps
GitLab CI/CD | Jenkins | Azure Devops Pipeline | AWS CodeCommit | AWS CodePipeline | AWS CodeBuild | SonarQube | Trivy | OWASP ZAP | OWASP Dependency-Check | Veracode | Twistlock | Terraform | AWS CloudFormation

MLOps & LLMOps
Containerization and deployment of ML/LLM models | FastAPI services for model serving | MLOps Pipeline | GPU-accelerated inference on EKS GPU nodes | GPU time-slicing and resource optimization in Kubernetes deployments | Fastmcp | Model Lifecycle

Monitoring & Logging / Observability
Prometheus | Grafana | CloudWatch | Splunk

Other Skills
Python | Git | PostgreSQL | MySQL | Linux | Bash | Nginx
